THE CULVERT on the main road west and near the farm of Geo. Empson, has just been finished by the contractor, John Mogilvich, and gives us a good road from this city west.

NEW RESIDENCE.—R. V. Muir has commenced the erection of a residence on his property just east of the Presbyterian Church. He has the finest site for a residence in the city, and will crown it with a splendid building.

THE BRIDGES at Bennet's Mill and on the site of the old Waddel Bridge are progressing satisfactorily. J udge Wheeler has just received the irons and has a full set of hands engaged getting out the work working on both Bridges.

THE BAPTISTS of this city have now fairly got their new Church under way, the bricklayers are at work and by the 1st of July will be enclosed. Judge Morgan is superintending the construction and promises an early completion and fine building.

THE TRANSFER COMPANY have just received their New Omnibus from Chicago, through F. A. Tisdel & Co., of this city. Jacob Rogers, Superintendent of the line will now run his coach regularly from this city to the Depot of the C. B. & Q. St. Jo Railroad, making close connection.

HORSE THIEVES.—Last Thursday afternoon a person, from Iowa, in search of stolen horses, overlook just as they came into this city and had arrested two persons riding the same property. They were taken to the Nebraska City jail to await a requisition from the Governor of Iowa.

YOURS TRULY!—During the past week we were considering the propriety of getting our editorial pedal extremeties "shod all 'round," when Robert, of the firm of Teare & Co., did it so neatly and gratuitously as to place us under lasting obligation, and compel the comment that their Shoes are No. 1.

NEW GOODS.—Quite a number of our merchants have been receiving new goods during the past week. Swan & Bro's have a stock of fresh Groceries; D. May a lot of Dry Goods; Teare & Co. Queensware, Dry Goods, etc.; Thos. Hill & Co., a lot of choice Groceries and Dry Goods. Trade is good.

PROF. WILSON Lectured on Harmonial Philosophy in this city last Friday, Saturday and Sunday evenings, to intelligent and appreciative audiences. The Professor has created much interest and has shown abilities not possessed by ordinary men. He has an nearly every one to thinking who heard him. He will Lecture here again on his return from a trip up the river.

HURRAH FOR THE RAILROAD! BROWNVILLE THE TERMINUS OF A RAILROAD.—The first passenger train from Council Bluffs ran down to the Depot, opposite this city last Monday, thus bringing this city within the great railroad circle of the United States, and with England, through the Atlantic Cable—*and Brownville is the terminus!* New York and Philadelphia in four days! Chicago is as near as St. Joe, and St. Louis is as far off as ever! Now for that switch, gentlemen.

RUSH! RUN! BE IN TIME, OR THE BARGAINS WILL ALL BE GONE! Come English, Come Irish, come along Germans and Americans too, both French and Swiss, and Freedmen and natives this wide world through; you will be welcomed by the new Bloderick Dare; Wm. T. Den is the man that will sell you the cheapest and best Fashionable Clothing, New York and its prices not excepted. Also, Dry Goods, Fancy Hats and Caps, Ladies' and Children's Hats. Shoes, Furniture and Flour, in fact, anything that the Jew or Gentile may want, W. T. Den can furnish you *at prices that will defy competition*, and will not be undersold by any old house or new comer in this town of Brownville, or U. S. of America. W. T. DEN.

THE STREET BONDS.—According to notice in these columns last week, Wm. H. Hoover, City Treasurer, paid off the interest and one-tenth of the principal of the June, 1867, issue of Brownville City Street Improvement Bonds, thus paying $200 on each $1000, leaving $800 still due the holder. This promptness now should bring these Bonds much nearer par than they have been, as this is only an index of the manner in which they will be met hereafter. There are still about $5000 worth of Bonds authorized by any contract now let and which should be expended on the west end of Main street. This can be done only by capital stepping forth and taking these Bonds for in lue of a fair equivalent, considering the safety of the investment and the interest. The business of this city demands the grading of the west end of Main street, no inquisitive room forward and secure at once this benefit to it-self and the city.

WE DO NOT Sell some classes of goods at less than cost and charge double for others in order to make up. R. TEARE & CO.

WE ARE NOT forced to sell our goods, but propose to give men and women bargains, and send a quality of Goods as shall give no reason to complain hereafter. R. TEARE & CO.

WE SHALL hereafter sell our Flour—which took the 1st Premium at the late County Fair—as cheap as any of the same grade, and can warrant it to be good. For sale at McGee & Co's and Wm. Wallace's. THOMPSON BRO'S & LOVELACE.

FARM FOR SALE.—40 acres lying within one mile of Nemaha City and three miles of Brownville —all in cultivation; has an inexhaustible stream of clear spring water running through it; a cabin with a splendid spring of water near by upon the premises. Apply to if G. W. FAIRBROTHER.

IMPROVED FARM FOR SALE.—I will sell an improved farm of 160 acres, 9 miles west of this city, for $4,000. It has a hedge fence all around it and is hedged in 40 acre lots; each forty has running water on it; with a No. 1 dwelling house, good barn and tenant house on the premises.

160 acres of the best land in Nemaha County—14 miles west of Brownville—at $2½ per acre.
CHAS. McPHERSON.

CIRCUS.—Magnley & Carroll's Great Consolidated Circus will exhibit in this city on the 11th. Theirs has been a series of triumphs from the Gulf to the lakes, drawing audiences and leaving them always satisfied. They travel by boat and of course their troupe and horses are in good condition and able to perform well. The troupe, is composed of star performers, whose names are widely known and always draw large crowds in the cities. Read their advertisements and posters and prepare to go.

IF McFALL & CO., have not just received a full steamboat load of Furniture, it is very near it, for their large store room, 24X60, is full to the ceiling, with the pavement filled ten feet high with chairs, tables, bed-steads, lounges, etc., of every style and pattern, and more coming, in the shape of forty dozen matrasses. We honestly and conscientiously commend this firm to the patronage of the public throughout this Land District, both in the wholesale and retail trade. Their enterprise has been a great benefit to this whole community, they being an liberal tradesmen, and McFall himself being a good mechanic, as can be found in the west. Our word for it you will save money, get just what you want and a good, sound, warrantable article at McFall & Co.'s.

FOSTER HOME TRADE.—It is not our forte to eulogize our own goods, or depreciate those of others, yet we cannot refrain from inviting the public of Nemaha county and the Nemaha Land District to call and examine our very large and complete assortment of Furniture, Upholstry, and everything in our line. We shall always keep our stock up to the wants of the whole Nemaha Land District, and shall not be undersold by any house South of the Platte or North of St. Joseph. We manufacture our own goods, and can therefore warrant what we sell. Lumber, your money will be our manufacturers, in preference to building up foreign tradesmen. If we cannot sell you as good an article as cheap as any other man, we'll give it to you. So come all ye who wish to buy, we defy competition from all quarters. McFALL & CO.,
Brownville, Nebraska.

DRY GOODS MARKET.

Office Chicago Journal Commerce & Price Current;
May 27th, 1868.

There has been little of special interest to report in the Dry Goods market since the date of our last. Trade has ruled quiet, and prices quite steady and uniform. Standard Prints of new and choice designs are sold at 12½c, and old patterns at 11½@12c. Delaines are quiet at 16@18c, as to style. The market for the raw material has ruled dull most of the week, though there is rather more doing at the close but at easier prices, bidding Uplands same at 39c. Prices for the manufactured article for the most part continue relatively below the raw material, and there is, therefore, little or no margin for a further concession. The Spring trade has not thus far come up to general expectations, though it has shown some improvement upon that of last year. The Boston *Shipping List* says:

Domestic goods generally are much depressed, and as most kinds are accumulating, agents are willing to make very liberal concessions to buyers when any present themselves. The retail trade both here and in the interior is at a stand still, and consequently dealers have but few calls to supply. We understand that the Massachusetts Cotton Mills are about to stop running for two weeks, and it is expected that some others will do likewise. This is the true remedy, for it is quite plain to any impartial observer that there are too many goods on market for the wants of consumers, and that the supply must be materially lessened before the business will be in a healthy condition.

Adjourned Sale of Lots
IN
Lincoln, Nebraska.

THE UNDERSIGNED WILL OFFER For Sale at Public Auction, at Lincoln, Nebraska, at 10 a. m.,

Tuesday, June 9th, 1868,

about Three Hundred Lots in said town, being the number unsold at the time of the adjournment of the sale last fall. The lots are appraised, and will be sold to the highest cash bidder above the appraisement.

Lincoln is the Capital of Nebraska,

and was founded by authority of the Legislature. It is situated in the most fertile region of Nebraska, and at a point apparently designed by nature to be the junction of not less than four of five trunk lines of railway. It is adjacent to the most valuable saline region in the west, of which the capacity for immensely profitable working has already been satisfactorily tested.

About one thousand lots were sold at public sale last fall, at prices ranging from $5 to 60 per cent. above the appraisement; and this spring, no rapid has been the settlement and growth of the town, and so fair and certain its prospects, lots have sold second-handed at prices from Three to Six Hundred per cent. in advance of their cost. The Stace House, building from the proceeds of the sales last fall, is approaching completion. It will be ready for occupation by September, at which time the State Government will be removed to Lincoln.

At the June sale there will also be offered a Section of School Land, adjoining the city, in tracts of a few acres each.

DAVID BUTLER,
T. F. KENNARD,
JOHN GILLESPIE, } Commissioners.

THE "COMPENSATING" POWER.
(Both eight and ten horse.)

A laudable ambition exists among threshers to "own the best machine in the neighborhood." Nothing is more disgraceful to them than to have farmers complain that their work is not properly done, or to lose valuable time by reason of breakages, and they cannot be too careful in selecting a machine.

The Sweepstakes is the acccredited head of the Threshing Machine family, and its superior strength, durability, simplicity, ease of draft, style of finish, and capacity for threshing and cleaning grain faster and better than any other in the world, are acknowledged.

The great reputation achieved by this favorite machine has induced unscrupulous manufacturers, and numerous agents, to attach the name "Sweepstakes," in one way and another, to their machines and advertisements to mislead and deceive.

This is the essence of unmanned—downright piracy, and sailing under false colors. To avoid the counterfeits, see that every machine has the card, "C. AULTMAN & CO., Manufacturers, Canton, Ohio," in gilt letters, conspicuously on both sides of the Separator.

The Genuine Sweepstakes enables the thresher to pick his customers, seldom stops for repairs, lasts much longer than others, saves much grumbling and vexation, does the same amount of work with less labor, and enables him to select the best and most profitable jobs.

The farmers give it a preference, and often an extra price per bushel, because it threshes clean from the straw, separates perfectly from the straw, cleans it for market without waste, saves all the grain, and will work in the most difficult grain, by and common, and does not keep a gang of men and teams about them on expense.

The elegant "Patent Pivot Side Gear" is to be found only on the Sweepstakes.

Our "Patent Cleaning Apparatus" enables the engineer to control the direction of the blast, and lightness of the screw, and clean either wheat, oats, barley, timothy, clover, or flax as it can be threshed,—the chaff and dirt being separated from the grain *before it strikes the sieve* for all.

Separators, Horse Powers, Straw Stackers, Feed Cutters, Wood Saws, Belts, Pitts' Improved Smut Machines, all of which are delivered with every machine. The "SWEEPSTAKES" is usually a very scarce article after harvest, and parties should order early.

Call or send and get a pamphlet circular, giving a full description and particulars, together with numerous certificates, and the names and residence of over three thousand persons who have bought and tried the Sweepstakes in Illinois, Iowa, Minnesota, Wisconsin, and Kansas, alone.
